

To whom it may concern:

K-LOVE is an excellent radio station and should be given priority over LPFM stations because it connects me to home. I am currently serving in the Army at Ft. Bliss, TX, which is 1,157 miles from my home of Fargo, ND. What is so amazing about this station is that I can listen to the exact same music that my dad in Fargo is listening to at the exact same time. Also, it provides a service to the local community by announcing non-profit events that might be of interest to the local community, such as Christian concerts. The more advertising those concerts get, the more people go. The more people go, the fewer people there are on the street causing trouble. It is not worth it to replace these stations.
